

Classroom Hazard Hunt

Completed

Secure: Free-standing cabinets, bookcases, and wall shelves to structural supports.

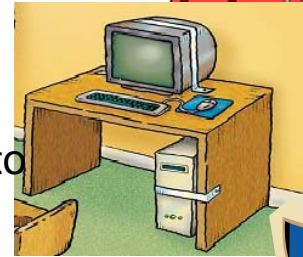

Remove: Heavy objects from shelves above the heads of seated students.

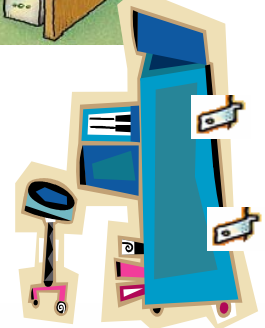

Locate: Aquariums and other potentially hazardous displays away from seating area.

Secure: TV monitor and computer equipment to stable platform or secure to rolling cart with lockable wheels.

Ensure: Classroom piano is secured against rolling during an earthquake.

Secure: Wall mountings to prevent them from swinging free during an earthquake.

Fasten: Hanging wall plants with closed hooks and use lightweight, unbreakable pots.
